PROJECTS

Plantship – UI/UX Designer
Duration : 27 *days - May - 2022*

- Designed an interactive mobile app that allows users to scan the plant and get its caring instructions
- Users can also buy recommended plant care products in the app
- Started with user research, interviews and created the user flow, and ran a quick user test with paper prototyping
- Lastly worked on UI and tested the interface with a high-fidelity prototype

Redesigned Webpage – UI/UX Designer
Duration : 12 *days - March - 2022*

- Redesigned the 'Inkscape' homepage to enhance the overall user experience and improved the visual look of the page
- Created UI/UX design using Figma, worked on an iterative process, started with research, identified pain points, designed new structure, wireframe, visual design, and interactive prototype
- Conducted A/B testing with 3 users, and redesigned page won the test

Mini Projects – Interaction Designer

Designed delightful interactions
- Creative Micro-interaction of switching light to dark mode
- Card swipe and click interaction on movie app
- 3D swipe animation on mobile device
